BUG-01: Reset App State: product buttons still show “Remove” until page refresh

Description

Steps	1. Log in to saucedemo.com as `problem_user` 2. Add any product to the cart 3. Open the side menu 4. Click **Reset App State** 5. Without refreshing, look at the button of the product you added
Expected Result	• The cart badge disappears • The cart page is empty • The product button goes back to **Add to cart**
Actual Result	• The cart badge disappears • The cart page is empty • The product button still shows **Remove** until the page refreshed or you leave it and come back

	• Same behavior if Reset is clicked while on the cart page, the items stay listed until the page is refreshed (or removed manually)
Severity	Medium
Environment	• Chrome `154.0.8037.98` • Brave `1.97.56 (Chromium: 155.0.8059.40)` • Windows 10
Evidence
